REINER KNIZIA

BRAINS

JAPANESE GARDEN

50 brainy puzzles for 1 player ages 8 and up
by Reiner Knizia

INSTRUCTIONS

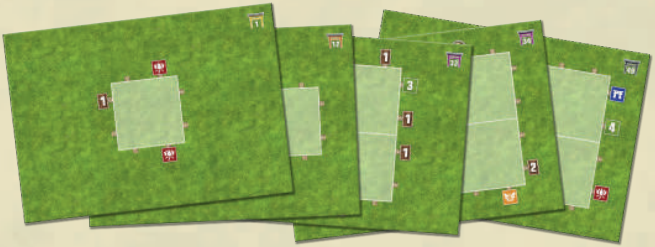

JAPANISCHER GARTEN

Die deutsche Anleitung findest du auf der anderen Seite dieses Heftes.

What's it about?

It is not as easy as it might seem at first glance to lay out the perfect Japanese Garden – and it is even harder if you have to do it by following strict instructions. Will you manage to find the perfect garden tiles to finish all the tasks laid out before you?

What's inside?

25 Puzzle sheets - double-sided

7 Garden tiles

1 booklet with First Hints and Solutions

this booklet with instructions

How does it work?

Choose 1 of the 50 puzzles from the **Puzzle sheets** and put it in front of you. Take the 7 **Garden tiles** and hold them ready. Now you can start.

You try to fill each empty space on the **Puzzle sheet** with a **Garden tile** in such a way that all the **Tasks** on the **Puzzle sheet** are fulfilled. You may **adjust** the **orientation** of a Garden tile in any direction.

Each puzzle has **exactly one** solution. The puzzles are designed in such a way that smart deduction will lead to the solution much quicker than trial and error.

Easy or Hard?

We recommend solving the puzzles **in their numerical order** as they are divided into varying levels of **difficulty**:

1-10: Warm up

11-20: Over hedge and ditch

21-30: Treacherous terrain

31-40: For Experts only

41-50: Ultimate challenges

The Tasks

This path has to pass by the **pagoda**.

This path has to lead to the **Yin-Yang sign**. Note that both paths leading to the Yin-Yang sign **end** there.

This path has to go over **exactly** this amount of **wooden bridges**.

This path has to go through **exactly** this amount of **Garden tiles**. A Garden tile can count **multiple times** if the path crosses this Garden tile **multiple times**.

Each same-coloured **pair** of such **symbols** has to be **connected** by a path.

Example

Hints and Solutions

Should you ever lose your way, we will gladly help you to get back on the path! Just have the First Hints and Solutions booklet to hand:

- Reading it with the **"First Hints"** side up, you can find a first hint for all the puzzles numbered 3 to 50. Each hint shows the correct placement and orientation of exactly 1 Garden tile on its Puzzle sheet.
- Reading it with the **"Solutions"** side up, you have the complete solution to each and every Puzzle sheet.

We hope you will have lots of fun sharpening your mind in this Japanese Garden. Should you ever be in doubt on your path, just take heed of this Japanese Proverb:

> Perseverance is strength.
